#CommunityActionWorks

The Promise of Community Action

Community Action changes people's lives, embodies the spirit of hope, improves communities, and makes America a better place to live. We care about the entire community, and we are dedicated to helping people help themselves and each other.

In 1964, President Lyndon B. Johnson launched his "War on Poverty" Initiative, which gave birth to community action. The month of May we were reminded of our purpose and the Promise of Community Action.
